

***“The token that
incentivizes you to
train better.”***

Fittoken represents the cryptocurrency of the world's first tokenized gym chain (Slowfit) and the Resistance Institute Fitness Training Academy.

A token that helps you train better, with a tokenomic model to be used both inside (Slowfit Centers and Franchises and Resistance Institute academy) and outside the company, via DeFi services.

On April 22nd at 22:00h starts the private sale of the token: only 1.000.000 units at 0.10€ (50% discount vs. starting price in the pool). It will be listed on July 15th on Pancakeswap, the leading DEX of the BSC.

The Fittoken will give access to services only available on a stake basis. We will be able to benefit in 3 ways when buying tokens:

1. Saving.

We earn the capital gains associated with the price

2. Staking.

In addition to the above, more than 12,000 tokens/month are distributed in incentives.

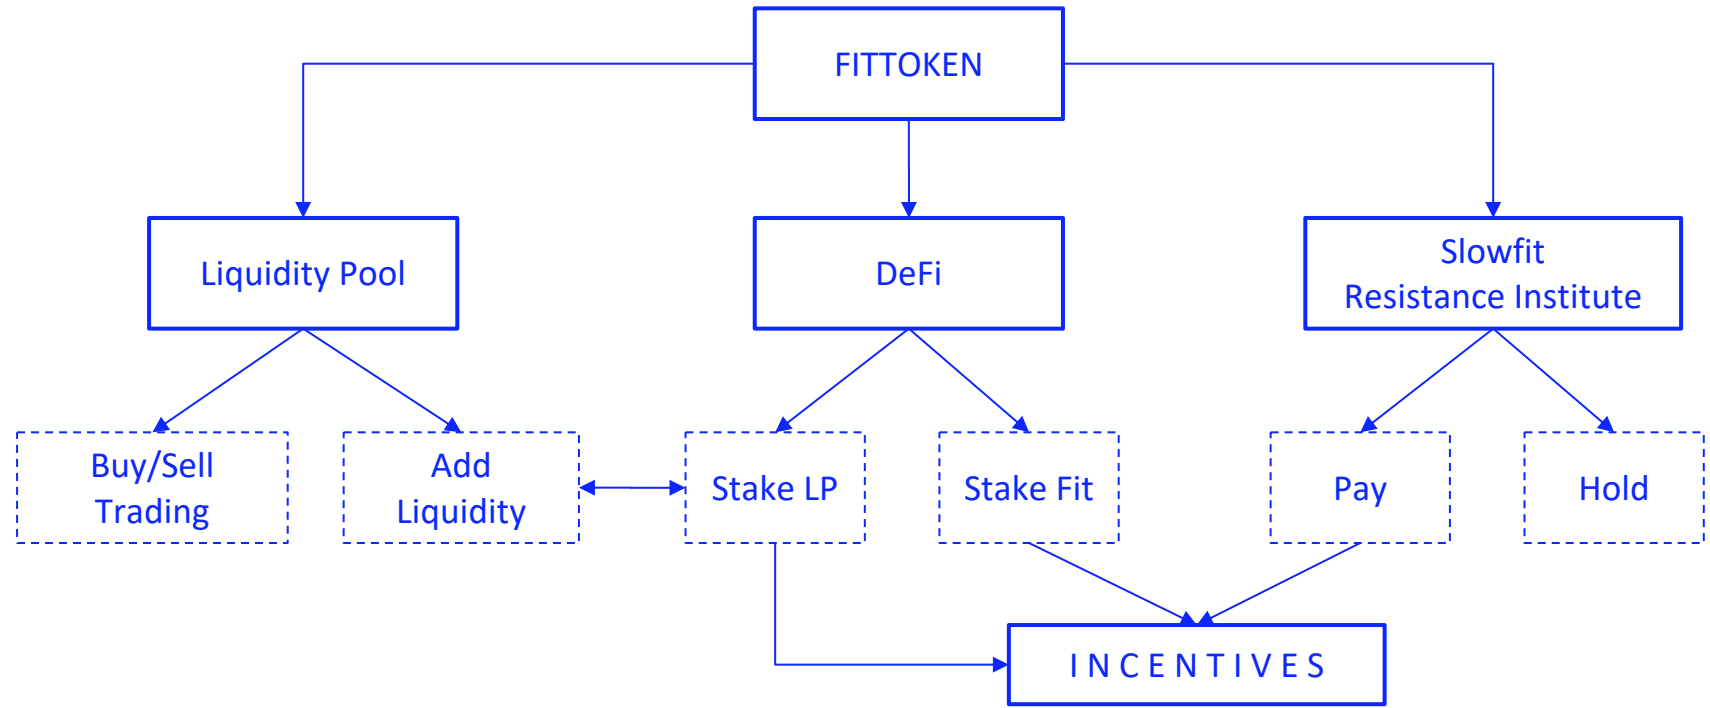

3. Providing liquidity.

More than 16,500 tokens/month of monthly yield farming are distributed, 0.17% of the transactions in the pool, and we gain exposure to BTC (the pair will be against BTC, so the higher the Fit revaluation in the same time we will leave the pool with more BTC).

Who is Fittoken for?

1. Slowfit and Resistance Institute clients and any member.
They will use it as an incentive to improve their training and gain access to exclusive products.
2. Trainers from any member gym.
They will receive incentives based on individual and collective results.
3. Crypto users, outside gyms and websites.
They will obtain incentives through staking and farming actions, providing liquidity.

We designed the Fittoken to be very useful inside and outside the company, with a powerful incentive system; in addition to being purchased to pay for access to products/services, it can be staked or farmed to provide liquidity to the pool (and thus receive more incentives).

A fair distribution of tokens will be made by rewarding private sale buyers, and limiting the influence of the promoter team in the very long term.

Stakeholder	Fittokens	Characteristics	Distribution (months)
Promoter Team	1M	Vesting 4 years	13 to 48
Pre-sale	1M	Project Funding (100k€)	1 to 6
Treasury Stock	2M	Reserve Fund & Pool	1 to 48
Yield farming	2M	+ Incentives through staking	1 to 70
Incentives	4M	Distribution among customers	1 to 120
Total	10M		

What is the Fittoken for?

With the Fittoken you can unlock improvements in incentives and privileged access to services within Slowfit and Resistance Institute. Depending on the number of tokens staked, each user will be able to unlock one of the 5 levels:

Level 1 - “BASIC”

- Minimum **10 tokens** in staking
- Purchase of merchandising with FITTOKENS
- **600 Fittokens** to be distributed among "Basic Stakers" of the monthly Yield Farming.
- They will **receive 5% of the unallocated Staking Incentives.**
- **1% payback** on Slowfit programs

Level 2 - “ADVANCED”

- Minimum **100 tokens** in Staking
- Buy merchandising with FITTOKENS
- **Governance power** to decide on merchandising designs
- **1.200 Fittokens** to be distributed among "Advanced Stakers" of the monthly Yield Farming.
- They will receive **10% of undistributed consistency incentives.**
- **2% payback** on Slowfit programs

What is the Fit token good for?

Each higher staking level includes more multiplier, more undistributed incentives and more payback.

Level 3 - "SILVER"

- Minimum **1,000 tokens** in Staking
- Buy merchandising with FITTOKENS
- **Governance power** to decide merchandising designs
- **Unlocking of rewards multipliers** in different programs
- **Purchases** possible with FITTOKENS: sessions, bonuses and Slowfit products
- **2x multiplier** for incentives generated
- **1.800 Fittokens** to be distributed among "Silver Stakers" of the monthly Yield Farming.
- They will receive **15% of the undistributed incentives for consistency.**
- **3% payback** on Slowfit programs

Level 4 - "GOLD"

- Minimum **20,000 tokens** in Staking
- Buy merchandising with FITTOKENS
- Governance power to decide merchandising designs
- **Unlocking of rewards multipliers** in different programs
- **Purchases** possible with FITTOKENS: sessions, bonuses and Slowfit products
- **3x multiplier** for incentives generated
- **3.600 Fittokens** to be distributed among "Gold Stakers" of the monthly Yield Farming.
- They will receive **30% of the undistributed incentives for consistency.**
- **4% payback** on Slowfit programs

With the **PLATINUM** level, the token holder is treated almost as a partner of the company, and can even decide on new investments in machines to be made in each location.

Level 5 - “PLATINUM”

- Minimum **50.000 tokens** in staking
- Buy merchandising with FITTOKENS
- **Governance power** to determine:
 - Merchandising designs
 - Proposals to incorporate **new machines** and **new courses**
- **Unlocking for rewards multipliers** in different programs
- **Purchases** possible with FITTOKENS: sessions, bonuses and Slowfit products
- **10x multiplier** for incentives generated
- **4.800 Fittokens** to be distributed among "Platinum Stakers" of the monthly Yield Farming.
- They will receive **40% of the undistributed incentives for consistency.**
- **5% payback** on Slowfit programs
- **VIP locker** with laundry service
- Annual **FITOKEN VIP DINNER** Meeting

The distribution of tokens is detailed in the Whitepaper.

Slowfit customers: "The more you train and meet goals, the more tokens you receive". The number of tokens will depend on:

- Consistency and improvement in training results and density.
- Improvement in the SLOWFIT TEST (strength, % fat, lifestyle habits,...).
- Multipliers depending on the program: Pro-Conditioning, Pro-Shape, Total-Conditioning...
- Referral plan.

Resistance Institute alumni: "The more you progress in the Biomechanics Pro Club, the more tokens you receive". The number of tokens will depend on:

- Completing minutes viewed in the Pro Club and tests passed on the platform.
- Consistency in learning.
- Referral plan.

Coaches: Individual and collective incentives.

Franchises: pool 10% of the tokens used to acquire tokens in advantageous conditions.

Fittokens will be sold in strict order of reservation:

Start: Thursday 22nd April at 22:00h. **SOLD OUT IN 4 hours!**

Procedure:

- Communication to Lucas / team
- Investor, amount and method of payment
- Signing of SAFT (Service Agreement for Future Tokens)
- Invoice and transfer

Post-signing:

- Opening of wallet in the Binance Smart Chain.
- Delivery of tokens after issuance (May/June)
- Operational training for investors (May/June)

DeFi pool and services. July 15, 2021.

- Once the token starts trading, the investor will be free and autonomous to do as he/she consider.

¡SAVE THE DATE!

15-JULY-2021

*FITOKEN public sale in
PANCAKE SWAP*

INITIAL PRICE:

0,15 Euros

FINAL PRICE:

To the Moon 🚀

**We are working to make Fittoken the fitness industry's
benchmark crypto-asset: liquid, available to anyone
and increasingly used outside the company;**

**Its scarce supply and high incentives not to sell it will
hopefully cause an escalation in price
VERY important**
